

LifeLineMobile®

Paperwork at delivery

Several pieces of paper change hands when we deliver your completed LifeLine mobile unit. Here is a brief summary of the documents, and what you'll want to have ready at delivery.

1.) FINAL INVOICE

This is the amount of money due at delivery. If your check is ready, we will surrender the title to you at delivery. Without a check ready, the vehicle can be driven away for storage at your expense, until final payment is made.

2.) BILL OF SALE

Your state's motor vehicle bureau may want to see this in order for you to pay your sales tax on the vehicle.

3.) YOUR TAX I.D. NUMBER

The IRS requires your taxpayer i.d. number (TIN) for your temporary tags.

4.) CERTIFICATE OF ACCEPTANCE

You and LifeLine have to agree at some point that you are responsible for the new vehicle. Without you accepting the responsibility for it, we cannot leave the mobile unit in your care. Don't worry: you still have a full warranty, and our satisfaction guarantee. You don't give up anything when you sign this form... you just take the responsibility for the van's safety and security.

5.) TEMPORARY PLATE

Place this tag in your windshield, and keep the green copy of the registration form in your glove box.

6.) TEMPORARY REGISTRATION

This form, once signed, gives you a temporary registration that matches your Ohio temporary license plate. We can't leave the temporary tag without this form signed.

7.) VEHICLE TITLE

You need the title in order to register the health van, and get your permanent license plates. Until LifeLine receives final payment, we do not surrender the title to the vehicle, and therefore, you cannot register the vehicle.
