

**Morning Frost**

*The Morning Frost design is one of our most popular options. The calming effect of blues in a professional medical space is profound. This design grouping includes wood-grain cabinets with a gray undertone and a timeless door profile. The flooring is our best Amtico commercial-grade vinyl in Pearl Washed Wood. The range of blues is unified with the blue accent wall which provides a visual break in the neutral walls and adds a custom touch to this fresh, modern interior.*

**Jade Elegance**

*Incorporating a range of greens, this design has a nice balance of tones throughout the space. The storm gray wood-grain cabinets and Amtico vinyl flooring pair well together and create a pleasing ground for the range of greens in the valances, seats, and privacy curtains. The countertop creates contrast between the cabinets and deeper wall color. The addition of the green accent walls adds another level of sophistication to a very inviting space.*

**Canyon Echoes**

*Brightness and warmth define the palette of our Canyon Echoes Design. The walnut flooring in our best Amtico resilient commercial-grade vinyl ties together the warm, honey tones found throughout this design. The cabinets feature a deep wood-grain finish with a classic door profile. The accent walls bring in a bright warmth and can be applied to any area in which you would like to add focus and drama. The overall feel is warm and modern with a touch of cool.*

**Camden Revival**

*A unique combination of cool and rich tones, the Camden Revival concept is a modern take on a sleek, professional space. The deep accent walls and cabinets anchor the design, while the Amtico flooring and countertop provide crisp contrast. The space is unified with crisp blue and deep brown materials, reminiscent of Coastal Maine. The resulting environment feels both welcoming and fresh.*
